Application Package - Part Two
Instructions and Details for Completing the EMT Prerequisites**

- A. Security Clearance** from your local policing agency (e.g. city police or RCMP detachment) - dated within 90 days of submission to ESA confirming that a search based on your name and birth date showed a **clear record** with no criminal convictions or record of Criminal Charges and/or Disposition(s) in the Federal and/or Provincial Court Systems. The clearance must clearly state that a Vulnerable Sector Check has been performed. **Please allow sufficient time to order a security clearance, as it may take 4 to 6 weeks to process. Please note: A security clearance MUST be clear in order to continue with this application.**
- B. Updated immunization records** indicating vaccinations against measles, mumps and rubella (MMR), hepatitis B and tetanus/diphtheria, mantoux/tuberculosis screening, polio, varicella (chicken pox) and seasonal influenza (optional).

MMR - Mumps, Measles and Rubella

- This vaccination is typically given at 12 months and again between the ages of 4 and 6.

Hepatitis B

- As of 1981 this three shot series has been provided to children in grade 5. There is an initial vaccination, a second one four weeks later and the third five months after the second. Once a person has had the three vaccination series, they are considered to be immune for life.

In the first part, a fine needle injects a small amount of a harmless test substance under the first layer of skin on the forearm. The second part of the test is done two or three days later. You must go back to have your reaction to the injection measured.
- Parts one and two must be completed at the time the application is submitted to ESA.
- Please note: Mantoux / Tuberculosis screening results are typically issued **on a separate record and must be requested by applicant. Please allow sufficient time for receiving TB records - this process could take 4 to 6 weeks.**
